

NHCRWA Fee

The NHCRWA Fee on your water bill is a pass-through fee imposed by the North Harris County Regional Water Authority on all water pumped from wells within its jurisdiction. The District does not set this fee and has no control over it. The fee was first imposed in January 1, 2003. Initially it was set at \$0.25 per 1,000 gallons of water, and it has been increased periodically since then. Commencing January 1, 2009, the fee was increased to \$1.50 per 1,000 gallons of water. Effective January 1, 2010, the fee will increase to \$1.75 per 1,000 gallons of water.

Information about the North Harris County Regional Water Authority, which sets the NHCRWA fee, can be found at www.NHCRWA.com.
